
This is a movie about a Kashmiri girl, played by the actress Tabu, who falls in love with a terrorist and as such has to flee from authorities as she is now on their radar. The same goes for her lover as he is now an enemy of the state. The film also stars John Abraham and Shilpa Shetty. sarfarosh movie download 720p torrents full require viewers to ask questions and think critically about the reality they live in and what it means for people living in other parts of the world like Kashmir. The film was not able to do so because of its melodramatic tone and lack of realism. But is it really a terrible movie? Not at all. At least not in the way most people might expect it to be: melodramatic and unrealistic. The screen play by Milap Zaveri and the direction by Vipul Amrutlal Shah is top notch. The latter especially has done an excellent job in keeping the excitement steady and the pace moving at a brisk speed. There's not a single scene wasted in the narrative. Even the love making scene of the two lovers choreographed by Kunal Deshpande is sensuous and really gets your heart pumping. What makes this Indian film stand out from the rest of the films in its genre is its overall theme. It explores how people are alienated by their own governments because of their faith, nationality, culture or ideology. This irony is highlighted throughout the movie. The screenplay that keeps you on edge with twists and turns at every corner of the movie, makes it difficult for you to be swayed away from this film even while watching it again and again on DVD/VHS/laser Disc format. In the end the director was able to keep this far from being a melodramatic film and instead stretched it to be a highly suspenseful thriller. The supporting cast of the film is really top notch. The actor John Abraham does a really good job as a terrorist and actor Shilpa Shetty looks good in her role as a desi terrorist too. But Tabu is truly excellent in her performance as a desi girl who falls in love with a JKLF terrorist who turns out to be an enemy of the state as such. The music for this film by Sandeep Chowta and the sound design make this a very good viewing experience. The dialogues by Javed Siddiqui are also very well written and the background score is perfect. This movie despite its shortcomings has really stood out as one of the best Indian films made to date. It manages to break away from many stereotypes that other Bollywood films fall into, such as being unrealistic or melodramatic and therefore making it a good watch for those who want their senses to be engaged and challenged. All in all "Sarfarosh" is gripping, suspenseful and astonishingly un-Hollywood like – it's actually gripping, suspenseful and astonishingly original.
